**railway update**

Since the end of the year 2006 we have been publishing the English railway magazine Railway Update. It benefits from the long experience and the popularity of our other railway magazines Schweizer Eisenbahn-Revue, Eisenbahn-Revue International and Eisenbahn Österreich. Railway Update is published twice a year.

Reports address international issues and developments, with in-depth articles written in close cooperation with railway companies and international associations. The magazine also reports on developments in the rail industry and on technological advances. In short, it is a magazine of and for the railway world.

This is an excellent opportunity to gain publicity through a magazine with a large readership amongst the international railway community!

Volume  
24 – 48 pages

Editor  
Walter von Andrian  
MSc ETH
